THE FARMERS' ALLIANCE.

They will Have Thirty-Eight Members in Congress.

WASHINGTON, Nov. 8.—President Polk, of the National Farmers' Alliance, is very jubilant over the result of the election. In an interview he said:

"Democrats and Republicans are claiming everything just now, but when they come to sift the chaff from the wheat they will find that the Farmers' Alliance had something to do with electing a fair proportion of the good men who will have seats in the next Congress. Up to the present time it is certain that Congress will contain thirty-eight straight out Alliance men, and there are twelve or fifteen more who are pledged to us. These men are from the South and Northwest—the two sections in which most of our work was done.

"The Alliance in Nebraska, Minnesota and Iowa is not of our organization and is not amalgamated with us, but it made the same fight and will join us this Winter. Our Alliance will co-operate with any farmers' association, and in a little while have a grip on the situation in almost every corner of the land.

"We are here to stay. This great reform movement will not cease until it has impressed itself indelibly in the nation's history. Financial reform is a necessity and it must come. The press and the voices of our stump speakers were our only assistance. We had no campaign fund and no boodle. If we had had money we would not have used it. The principles on which the Alliance is founded are solid and correct; we must succeed.

"The fight was no small affair. The extremists of both parties attacked us bitterly and gave no inch of ground. In the South it was the Democrats who opposed us, and in the North our most vigorous antagonists were the Republicans."
